INFINITY SERIES

Access Your Comfort System from Anywhere

Things to Consider Before You Buy

Ultimate Control

Carrier specializes in creating a customized home comfort system tailored to your needs with a broad selection of residential heating and cooling products. Carrier's Infinity™ Remote Access, gives you unprecedented control of your comfort system and allows you to change your settings from anywhere in the world. Your Carrier dealer can help you choose the best system for your home, including Carrier-exclusive features that further enhance your indoor environment.

Access from Anywhere

With Infinity™ Remote Access, you will be able to access your Infinity™ System from anywhere with Internet or telephone access. Log onto the web site or call into the 1-800 number and you will be able to communicate with your Infinity System. Have you ever been on vacation when a sudden cold front came through at home? Were you afraid that your pipes would freeze? If you had Remote Access, you could have logged into your comfort system to turn on the heat or check your system.

Ease of Use

Infinity Remote Access makes programming your comfort system as easy as choosing options from a drop-down menu. You do not have to be Internet savvy to benefit from the energy-saving programming features and still have unprecedented control of your comfort system.

- The Main menu will be shown on every screen within the Infinity Remote Access web site allowing easy navigation.
- Your system will automatically get your Infinity System status upon logging into the web site. You will also be able to get the status of your Infinity System through the telephone access.
- You will be able to override settings in your Infinity Control for a set period of time via the Internet or telephone. Have you gone home sick during the winter and your home was freezing when you arrived? Have you gone home unexpectedly over the summer and your air conditioning was off to save energy? Remote Access will allow you to call on your way home to change your settings.
- The Carrier Infinity system offers unprecedented ease of programming. You can program your whole week without having to remember what you programmed from previous days, all from the comfort of your personal computer, and using simple drop-down menus. You can view a day-at-a-glance or week-at-a-glance.
- Have you ever gone on vacation and forgotten to set/save your comfort system accordingly? Remote Access allows users to program a vacation schedule through the web site.

Peace of Mind

Infinity Remote Access can e-mail and/or call the homeowner with Infinity System information. The homeowner has the choice to select a dealer to receive these maintenance or service reminders for timely service. There are two types of notifications:

- Urgent Notifications inform you when extreme temperatures, humidity levels and/or major equipment malfunctions need immediate attention at your home. These notifications can be sent any time, 24 hours a day.
- Routine Notifications inform you when it's time to perform routine maintenance such as replacing an air filter, humidifier pad or UV bulb. When you follow through on these reminders, you can feel confident that your system is operating at peak efficiency and delivering enhanced indoor air quality.

Warranty

The Infinity™ Remote Access is protected by a five-year limited warranty. Extended warranties are also available. Ask your Carrier dealer for further details.

Turn to the Experts

Willis Carrier invented air conditioning in 1902. Over 100 years later, we're proud to say Carrier systems are trusted in more homes than any other brand.

Carrier continues to be on the forefront of innovative engineering and unsurpassed standards of excellence. So when choosing a home comfort system, you'll want to turn to the experts. Your Carrier dealer will evaluate your home, such as window placement and size, ductwork, other structural specifics and lifestyle to provide a customized indoor comfort plan designed specifically for you. And when you have an expert helping you make an educated decision, you're going to feel more comfortable.
